END-TO-END SEED TREATMENT SUPPORT

SERVICES DEVELOPED AND COORDINATED IN THE **GLOBAL NETWORK** → CUSTOMIZED DELIVERY TO **LOCAL NEEDS**

RECIPE DEVELOPMENT & QUALITY ASSESSMENT

Quality seeds deserve a high performance seed treatment. We give you confidence in having a seed treatment that will bring out the best of high quality seed.

WE PROVIDE:

- Film coating polymer and color for quality appearance
- Optimized for coverage, dust-off, abrasion and seed flow
- Recipes customized for your local needs
- Recipe calculators and digital tools
- Compatibility testing with inoculants and micronutrients

HOW YOU BENEFIT:

- Accurate AI loading
- Seed coverage
- Low rub-off
- Seed flow
- Easy planting
- Minimal dust

APPLICATION & ENGINEERING

Choosing the right seed treatment equipment and user expertise are critical to deliver the best possible seed treatment.

WE PROVIDE:

- Equipment consultancy and partnership with manufacturers for new installations or upgrades
- Onsite and remote support for introduction of new products and in season calibration
- Support for large or small, fixed and mobile operations

HOW YOU BENEFIT:

- Easy and cost-effective selection of the latest technology
- Peace of mind from smooth operations throughout the treating season
- Throughput efficiency maximized

SEED SAFETY & BIOLOGY

All Seedcare products go through rigorous testing to assess their seed safety before they reach the market.

WE PROVIDE:

- Evaluation of new formulations, recipes and products throughout their lifecycle, according to ISTA protocols
- Consultancy: Seed Science and Seed Technology
- Customized seed-safety studies
- Customer complaint solutions

HOW YOU BENEFIT:

Guarantee that solutions recommended by us are safe for your seeds

STEWARDSHIP

Care for operator and environmental safety is central to everything we do and is a shared responsibility.

WE PROVIDE:

- Seed treatment site assessment (including health, safety, environment and waste management)
- Support for site certification standards, setting and implementation
- Dust monitoring with certified labs
- Product-specific certification programs
- Seed distributors and farmer education on safe handling of treated seeds

HOW YOU BENEFIT:

- Identify improvement points for employee working conditions and meeting local environmental standards
- Practical and smooth implementation of new regulations and rules
- Help our customers stay safe

TRAINING

From basic to customized courses, we upskill our customers on the safe and effective use of our products.

WE PROVIDE:

- Theoretical and practical training, online, face-to-face or even on your site

HOW YOU BENEFIT:

- Deep understanding of seed treatment principles
- Practical knowledge about our products and application
- Ensures safe and effective use of our products and improves your operational efficiency

MARKETING SUPPORT

Seeing is believing: visualize the benefits of seed treatment with compelling marketing materials.

WE PROVIDE:

- Easy to understand technical data
- Innovative showcasing using real materials and the latest digital technology

HOW YOU BENEFIT:

- Demand generation for your treated seeds
- Tools to visualize the benefits of seed treatment to growers
